PROFILE

A First-Class Honors graduate in Business Computing and Information Systems, specializing in the intersection of technical development and business strategy. Proficient in full-stack development using Laravel and MySQL, with a dedicated focus on building scalable applications that solve real-world business challenges. A trilingual professional (JLPT N2, C1 English Level) skilled in systems analysis, requirements engineering, and cross-cultural communication, eager to drive digital transformation and bridge the gap between technical teams and business stakeholders.

EXPERIENCE

Web Development through University Years

2022 - 2025

Developed an Ecommerce Website, a Social Media Awareness Educational Website, and a Language School Partner-Job Agency Job Application WebApp as projects for module assignments from each year, utilizing HTML, CSS, Bootstrap, Tailwind, PHP, Laravel, and MySQL.

Corporate and Office Operations Executive Staff

2023 - Present

Trilingual Interview Trainer/Language Interpreter in JMTS Toshin Japanese Language and Training Center by utilizing my teaching skill, and presentation skill, and 10+ years of experience in learning Japanese.
